

Solution of practice set -1

1. 40,40,44,004- Forty crore forty lakh forty four thousand four.
2. 124,325,687- One hundred twenty four million three hundred twenty five thousand six hundred eighty seven.
3. The largest number made by the digits= 97620.
The smallest number made by the digits=20679
The sum of these two numbers=
 $97620+20679=118299$
The difference of these two numbers= $97620-20679=76941$
4. 90099,90909,90990,99009,99090,99099
5. 11110,11100,11010,10101,10010,10001
6. Indian system of numeration- 14,53,26,789
International system of numeration- 145,326,789
