

## HOTS

Look at the following File Explorer window and answer the questions that follow.

1. How many folders and files are present in the current folder?
2. Identify the options on the Home tab that you will use to change the location of the file 'Maths Assignment' from the current folder to the 'MATHS PROJECT' folder.
3. Identify the option on the Home tab that you will use to change the name of the file 'My school' to 'My School Achievements'.
4. If you search the current folder with the words 'Animals', which all files will be listed?
5. Which option will you use to remove a file so that it can be restored back later when required?
