

# **SATISH CHANDRA MEMORIAL SCHOOL**

**CLASS - I**

## **Activity**

### **HANDPRINT FLOWER ACTIVITY.**

(Now pick a color for your flowers, such as yellow, orange, red, purple, etc. And you will also need green for the stems and leaves for the flowers. Then put down a piece of paper to use for your handprints flowers activity. Put your paint in disposable tin pans, plates, or trays of some sort. Have your child place his or her hand into the flower color paint and make sure that it isn't dripping wet. Then make as many flowers as your child wants to. Next wash your child's hands and dry them as well. Then have your child dip his fingers into the green paint and draw a line for flower stems. Then make a finger print for each stem. )
