

# SATISH CHANDRA MEMORIAL SCHOOL

## Mental Maths

1. Write true or false .

a.  $16 + 7 = 18 + 8$  False

b.  $20 - 5 = 16 - 1$  True

2. Find the missing number.

26 , 30 , 34 , 38 , 42 , 46

3. 6 less than 32 = 2 tens + 6 ones.

4. Write the even number between 51 to 68 and arrange in ascending order. **52, 54, 56, 58, 60, 62, 64, 66**

5. Identify the correct 3- digit number in which the digit in its hundreds place is ( 7 - 2 )

695 , 592 , 735

592

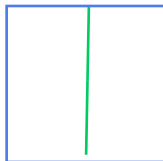

6. Write the missing number .

$22 - 3 = 19 -$ 0

7. 3 tens + 45 = 75 ( **30 + 45** )

8. Smallest 3-digit number + smallest 2-digit number = **110**  
( $100 + 10 = 110$ )

9. Draw a line to cut this square into two equal rectangle.

10. Lily has 54 chocolates. Her mother give 28 chocolates more. Find the total number of chocolates.

**$54 + 28 = 82$**
