

CASE STUDY-6

In 1869, Bose joined Hare School and six years later he was admitted to St. Xavier's School in Calcutta. He passed the Entrance Examination and joined St. Xavier's College of Calcutta. It was here that he came in contact with Jesuit Father Eugene Lafont who played a significant role in developing his interest in natural science. Later, Bose went to England and secured admission in Christ College, Cambridge, to study Natural Science. In 1884, he received the Natural Science Tripos from the University of Cambridge and a B. Sc degree from the University of London.
