How Many Squares?
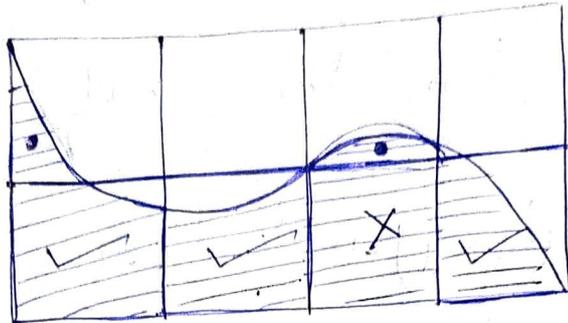

1) Find the area of the figure

No. of Full Squares = 1

No. of Half Squares = 0

No. of less than half squares = 2

No. of more than half squares = 3

$$\therefore \text{Area} = (1 \times 1) + (2 \times 0) + (3 \times 1)$$
$$= 5 \text{ cm}^2$$
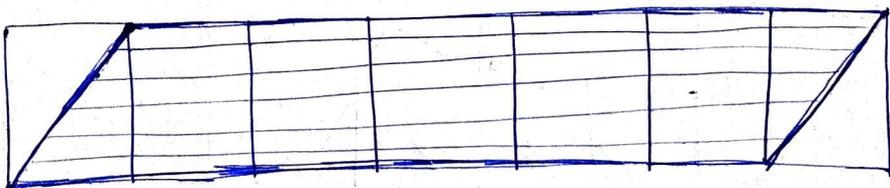

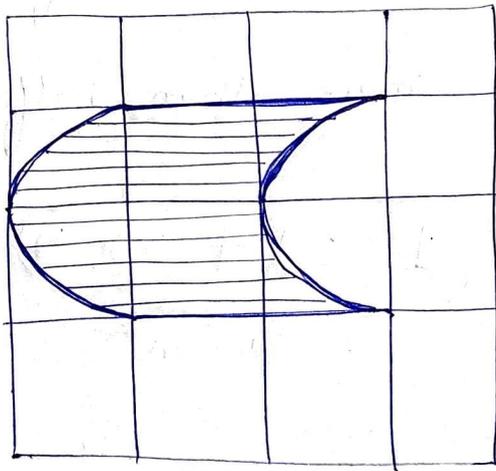

2) Find the area of the figure

No. of full squares = 4
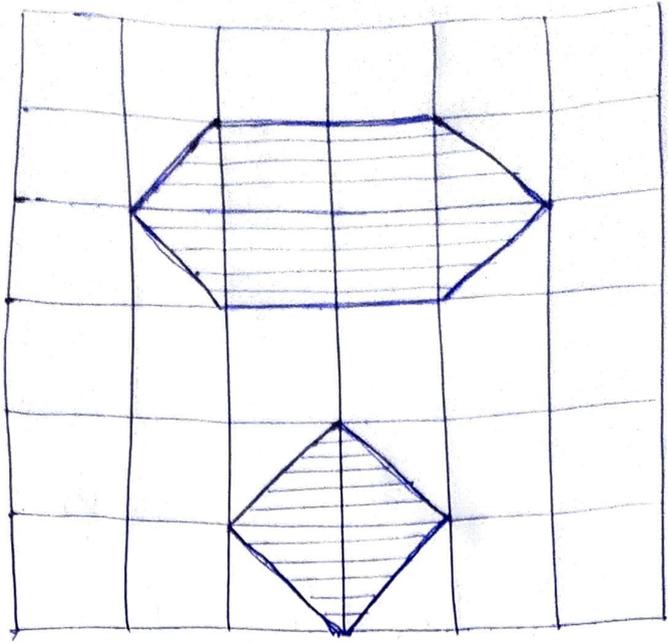

No. of half squares = 0

No. of more than half squares = 4

No. of less than half squares = 4

$$Area = (4 \times 1) + (4 \times 1) + (4 \times 0)$$
$$= 4 + 4 \ cm^2$$
$$= 8 \ cm^2$$

q) Find the area of the figure.

a)

b)

c)

d) .
